Work_Classification	Classification	subject		Controlled List	Classification	None	None	None	✓	✓	✓	✓
Work_Technique	Technique			Controlled List	Technique	None	None	None	✓	✓	✓	✓
Work_SubjectDisplay	Subject Display			Text		None	None	All		✓		
Work_Subject1	Subject	subject		Controlled List	Work_Subject	None	None	None	✓	✓	✓	✓
Image_Rights	Image Rights	rights		Text		All	All	All		✓		
Image_Source	Image Source	source		Text		None	None	All		✓		
Image_Filename	Image Filename	identifier		Exact Text		All	All	All	✓		✓	
[Image_IDNumber]				Exact Text		All	All	All	✓		✓	

Note that when you configure your Import the first time, you set the Image_IDNumber as the (MDID) Identifier, so this will be part of your routine tabbed export

Labels in blue would be on the search screen, most with drop down control lists

Notes: Controlled lists must be built manually (select column in Excel and paste into space in admin tools), so must be updated periodically from an Excel export of that authority field from VCat

- Title list: Do a find for preferred in Title layout/table, export, use TitleText field
- Agent list: Export Agent layout/table, use AgentSortName field
- Style/Period list: Export Style/Period layout/table, use StylePeriod field
- City_Site list: Export CityorCounty layout/table, use CityCountyEnglishName field
- Country list: Export Country layout/table, use EnglishName field
- Culture list: Export Culture layout/table, use CultureName field
- Work_Type list: Export Work Type layout/table, use NarrowTerm field
- Classification list: Export Classification layout/table, use ClassificationTerm field
- Technique list: Export Technique layout/table, use TechniqueNarrow field
- Work_Subject list: Export Subject layout/table, use SubjectHeading field
